Lychee, Longan, Atemoya, Sugar Apple and Carambola Pests Workshop (fourth in the tropical fruit series)

When: Wednesday, April 16, 2014; 9:00 AM to 12:00 PM
Where: The Agricultural Extension Center
18710 SW 288 Street, Homestead, FL 33030

With over 12,000 acres of tropical fruit in production, tropical fruit is a valuable economic resource for the state of Florida. This workshop will cover the tropical fruit pests associated with all crops listed above, as well as the ten universal truths of tropical fruit horticulture.

Pesticide CEUs have been applied for and will be available at the completion of the workshop.

Registration is $12 online, and $15 at the door.
There will be organic coffee and a light breakfast.

Register online here.
