Information on the culture of tropical fruit and citrus is available from Miami-Dade County /University of Florida Cooperative Extension Service at 305-248-3311. Other county Extension offices also can supply culture information.

*This fact sheet was prepared by Joe Garofalo (Nursery Agent), & Carlos Balerdi (Tropical Fruit Crops Agent), Miami-Dade County Cooperative Extension Service. Thanks to Gene Joyner of the Palm Beach County Cooperative Extension Service, and Jay Vedae of the Broward County Cooperative Extension Service for their assistance.

**All sources listed sell to both wholesale and retail customers, and most offer a wide selection of species and cultivars. No attempt has been made to include the many retail nurseries that carry some tropical fruit plants along with their mostly ornamental stock. You are encouraged to purchase locally when availability permits doing so.

Every effort has been made to ensure that this list is both complete and up-to-date. Entries were verified by phone, and all sources that did not respond or could not be reached were removed. Anyone aware of nurseries or other sources of tropical fruit and citrus plants not included in this publication is asked to contact Joe Garofalo, Nurseries Agent, or Carlos Balerdi, Tropical Fruit Agent, at 305-248-3311.

The inclusion of a nursery or other plant source in this list does not imply any guarantee of any sort by the Miami-Dade County Cooperative Extension Service or the University of Florida. The list is provided as a public service only.

TROPICAL FRUIT NURSERIES IN SOUTHERN FLORIDA

(Sources of plants to replace citrus in canker quarantine areas)
