

**Native Plant Nurseries in South Florida  
(Palm Beach, Lee, Broward, Miami-Dade, Monroe Counties)  
Laura A. Vasquez & John McLaughlin**

Selecting the proper plants is one of the most important elements when creating your landscape, keeping in mind the FYN principle “Right plant, Right place.” This will determine the level of maintenance, water, fertilizer and pesticides that will be required. Using native plants is one solution, since they are already adapted to south Florida conditions. However, a major impediment homeowners encounter in using native plants is finding a retail nursery that carries them. Below is a list of native plant nurseries and garden centers in South Florida. Some local chain gardens centers will special orders plants; you need to specify exactly what you need. Be sure to call ahead for business hours or if an appointment is required.
